

# GREENTECH WIRE

NON-COPPER COATED  
MIG WELDING WIRE

## Advantages of GREENTECH MIG Welding Wire

- GREENTECH is a new generation -100% pollution free production technology which is ACID and COPPER free.
- Unique surface plating technology gives longer shelf life.
- Weld Metal will have enhanced impact toughness and higher elongation values.\*
- Weld smoke is less harmful to human health.\*
- Cost-effective MIG welding wire.\*

*\*Compared to Conventional Copper Coated MIG welding wires.*
